

How much can your boat rock?

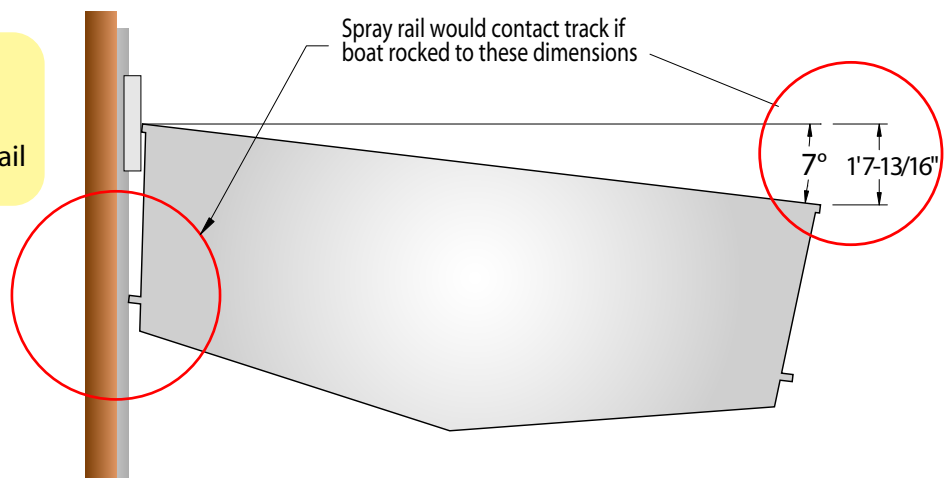

Give these three dimensions by email or fax and we will give you a diagram of how much your boat can rock without making contact with the track.

- A** Beam _____
- B** Rub rail down to chine or spray rail _____
- C** Edge of rub rail back to hull or spray rail _____

We will produce this type diagram for your boat

- A** Beam 13'-11"
- B** Spray rail 42" below rubrail
- C** Spray rail back 1-3/4" from edge of rub rail

**Please print this form and fax it to (772)283-0660
or email your three dimensions to Slidemoor@adelphia.net**
